RLDatix

Services

Flexible Service Packages

Dedicated and personalised support with expert advice, consultation and software administration.

More than a safety net, our flexible service packages provide specialist support when you need it. Whether it's covering for an absent system administrator or delivering consultancy to improve KPIs, our team steps in to drive measurable gains.

What are the key benefits?

Uninterrupted Operation

Seamless support during staffing vacancies or new hires ensures consistent system management.

Customised Consultancy

Tailored advice to focus on improving your key performance indicators.

Scalable Solutions

Select one or more consultancy options to match your organisation's unique needs.

KPI Enhancement & Monitoring

Drives improvements through tailored consultancy focused on KPI enhancement.

Operational Stability

Focused consultancy to boost productivity and sustainability improvements.

A flexible time-based service that can be tailored to organisational needs and renewed annually.

RLDatix

What more do the Flexible Service Packages offer you?

- **Ensured System Continuity & Stability** – Provides coverage during planned or unexpected system administrator vacancies, reducing operational disruptions.

- **Targeted Productivity Enhancements** – Delivers tailored consultancy to drive KPI improvements, optimising workforce efficiency and system performance.

- **Flexible Consultancy Support** – Offers adaptable support options, allowing organisations to select consultancy packages that best meet their needs.

- **Measurable Performance & Benefit Tracking** – Establishes a performance baseline, enabling organisations to track incremental improvements and commercial benefits over time.

- **Scalable & Sustainable Growth** – Enhances operational stability, maximises KPI performance, and provides scalable support to meet evolving organisational demands and increase productivity.

> "The whole team from RLDatix have been very supportive throughout every stage of the project. They have taken the time to understand our specific requirements as an organisation and reflected that in their set up and training of the system with us."
